### Functionality

- ▶ **Thin:** Diamond plated loading plate.
- ▶ **All-in-one:** Lift load. Roll load. Steer load.
- ▶ **Polyurethane rollers:** Protect your floors.
- ▶ **Rolls easily:** Large diameter rollers outfitted with ball bearings.
- ▶ **Application range:** Ideal to move industrial cabinets, vaults, boxes or cube shaped machines.

### How to use

1. Position one dolly on each side of the load.
2. Push nose plates under load.
3. Strap together to hold in place.
4. Pump each unit to lift up load.
5. Now roll.
6. Turn by turning handles. Side-by-side rollers are automatically kept in parallel.
