JUWathan+® Wheels

with Aluminum Core

Patented wheel material is baked in oven over long period for elasticity and extreme toughness!

Non floor damaging	For smooth and rough floors	Overcomes small obstacles easily by molding around them to keep rolling.	Low floor pressure	Shock absorbent	Superior performance and durability over traditional polyurethane, composite or steel wheels
Non floor marking	For floors with cracks and dirt	No stop, up & over action required like with other wheels.	Low break out & low rolling resistance	Reliable under toughest working conditions	
	For both inside and outside use		Low push-pull force and low manpower requirements		

MADE IN GERMANY
